

3rd Grade Summer Reading Activities

Welcome to Lookout Mountain Elementary 3rd grade, where we love reading! We want you to enjoy your summer with good books, and we would like you to read **at least two fiction books and one non-fiction book**. Reflect on one of the books you read, and create either a book review, a summary paragraph, or a poster that demonstrates what you learned or enjoyed most while reading. We hope you have an adventurous, reading-filled summer, and we look forward to seeing you in August!

3rd Grade Summer Reading Suggestions

Fudge Books - Judy Blume

Little House series - Laura Ingalls Wilder

Stuart Little - E.B. White

Charlie and the Chocolate Factory - Roald Dahl

Marvin and James series - Eliese Broach

Judy Moody - Megan McDonald

Spiderwick Chronicles - DiTerlizzi and Black

Dragon Breath - Ursula Vernon

My America, Dear America - various authors

39 Clues - Various

Hank the Cowdog - John Erickson

3rd Grade Math Activities

To give students a better understanding of multiplication, we are requiring each rising third grader to memorize every multiple from 1-10. Simply put, we want students to be able to skip count each number's multiples. We will work on memorizing facts during the year. Please take time to study throughout the summer.

Great Multiplication tools available online:

- Numberock - fun multiplication songs that you can find on YouTube
- Flocabulary - a interactive website featuring videos and practice activities, requires a subscription
- Jack Hartmann Kids Music Channel - great songs for each multiplication fact
- Math Blaster - online math games, parent must register

Great Multiplication tools available on Amazon:

- Learning Wraps - Addition, Subtraction, and Multiplication
- Multiplication Machine
- Multiplication Flashcards
- Three-Corner Multiplication Flashcards

In addition to multiplication facts, please review addition and subtraction facts throughout the summer. Enjoy your summer!
